Who is Redkey Express?

Redkey Express, a family owned and operated expedited delivery service. 30 plus years in the transportation industry have given us a sense of customer's true needs. Our focus is immediate response time with our team of professional drivers prepared to move at your command. They are qualified and trained with the necessary supplies and equipment to complete the delivery from start to finish. Whether it's an envelope, pallet, several skids or a full semi-trailer load, we are *small enough to listen* and *big enough to deliver*.

New Services for 2016

Full Truckloads Now Available

In addition to our box trucks and cargo vans, we are now available to expedite full semi truck loads. This service is available 24/7 for same day hauls of any distance.

Warehousing

Provide us with details about your inventory and logistics needs and we will follow up with a project proposal. Contract warehousing is a great solution for companies that would benefit from a dedicated facility with a customized distribution program.

It's Easy to Arrange

You can schedule deliveries and pickups over the phone, through email, or even over text.

Scheduling is Quick

All we need is the pickup and delivery location and time, contact information, and any special instructions.

Fast Delivery

In order to meet your needs, we offer expedited, after hours, weekend, and holiday deliveries.
